

Adaptable, cost-effective,
small footprint manual dispenser.

Glue Dots® Dispenser Box

Glue Dots International's (GDI) patented Dispenser Box is designed to make applying Glue Dots® Brand Adhesives simple, clean and cost-effective. Perfect for environments where electricity is unavailable, or when applicators and automated dispensers don't easily incorporate into a production process, the Dispenser Box offers a simple yet versatile manual adhesive application method.

An affordable solution for intermittent or continuous projects – in any work setting – the Dispenser Box is a thoughtfully designed corrugated box created to enhanced the user experience while increasing productivity. Features of the Dispenser Box are:

- Lightweight and portable, integrates into any project
- Compact, creating a small footprint
- Easy set-up and use, minimal training required
- Designed with braces for stable application use
- Ready to apply single or multiple adhesive patterns
- Can hold 2,000 or 8,000 adhesive patterns (depending on pattern and profile)

In addition to these features, the Dispenser Box is available with Glue Dots' Standard and Custom adhesives, making it a dynamic and versatile manual adhesive solution for virtually any application.

Once a project is completed, simply store the Dispenser Box with the adhesive roll at ambient temperature, in a clean, dry environment away from sunlight or other UV light sources. When the next project begins, the Glue Dots adhesive will be ready to use, right out of the box.

Used for packaging, direct mail fulfillment and post press production, and gift basket assembly, the Dispenser Box and Glue Dots Brand Adhesives are a popular alternative to double-sided tapes, liquid glues and hot melts. Glue Dots products are also a preferred solution when other adhesives prove to be messy, ineffective or difficult to use.

Dispenser Box Applications

Packaging

Secure product orientation, attach samples prior to packaging/shrink wrapping and create multi-packs

Printing, Post-Press & Mail

Attach promotional items & gift cards, close brochures or use as an alternative to wafer seals

Gift Basket Assembly

Hold and secure products in place, and create or bridge gaps

Glue Dots® Dispenser Box

The right adhesive solution for your application.

Established in 1997, Glue Dots International (GDI) forever altered the adhesive industry when it launched the unprecedented pressure-sensitive, preformed adhesives product line globally known today as Glue Dots®.

With the most pressure-sensitive adhesive pattern experience in the industry, GDI can help you find the right adhesive and application equipment solution to meet your specific needs.

Our experienced account managers and engineers are available to provide adhesive recommendations based upon your application. Sample adhesives may be supplied for testing.
